“DIRECTORS AND SENIOR ARCHITECTS GARY BANHAM AND STEEG BANHAM OVERSEE ALL PROJECTS, ENSURING THAT CONTROLS ON DESIGN ARE MET”

If any assurance is required, the impressive list of awards won by Banham Architects over the past 35 years will surely prove their value. A highly commended, award-winning, multi-discipline practice, Banham Architects provides architectural services for residential, commercial and hospitality developments. The practice also offers interior design and concept planning for both large and small-scale projects.

From conceptual design through to detailed documentation and contract administration, clients of Banham Architects can always expect professional, personalised service. The team members work closely with clients to deliver results showing creativity and originality. Directors and senior architects Gary Banham and Steeg Banham oversee all projects, ensuring that controls on design, documentation, administration and programs are met.

The resort-style pool takes centre stage and runs the length of the home. Floor to ceiling windows ensure no room is without uninterrupted views of the ocean.

MANDURAH HOME

Surrounded by native scrubland and sand dunes to the west and north, this home offers breathtakingly beautiful 180-degree views of the beach.

The owners wanted a relaxed yet sophisticated beach home, with open-plan living making the most of the views and the northern sun.

Entry to the house is through a secluded, sunny courtyard, where guests are greeted with a view of three bodies of water: the pool, the pond and the ocean beyond.

The main living areas are located on the ground floor, including the open-plan kitchen and living space that leads to the pool and covered alfresco.

Upstairs, you'll find the retreat and main bedroom with open-plan ensuite.

Almost every vantage point in the house has views of the ocean.

The house is a modernist abode with clean, sharp lines, while feature stone walls, timber screens and decking provide an earthy contrast.

"ALMOST EVERY VANTAGE POINT IN THE HOUSE HAS VIEWS OF THE OCEAN. THE HOUSE IS MODERNIST WITH CLEAN, SHARP LINES, WHILE FEATURE STONE WALLS, TIMBER SCREENS AND DECKING PROVIDE AN EARTHY CONTRAST"

The crisp, white exterior stands in beautiful contrast to blue skies and the ocean beyond, while the use of natural stone and timber brings warmth to the interior.
